Fortaleza - CE, Brazil

Profile

Currently working as a **fullstack development intern** at Elevar Commerce.

I am an undergraduate student in Information Systems at the Federal University of Ceará - *Campus* Quixadá, and a web developer with experience in React, Angular, Node, and other development technologies.

My experiences are primarily focused on frontend, but I also work on backend projects using Node and Java.

Check out my projects on my **GitHub** or connect with me on **LinkedIn**.

Professional Experience

Dec 2022 - Present | Fullstack Development Intern at Elevar Commerce

- Develop and maintain web applications for an Ecommerce platform, both frontend and backend, including integrations and other features inherent to this type of product;
